'LNG & Hydrogen will play a key complementary role in energy transition'

Chief Editor, DEW Journal talk to Tim Karlsson, Executive Director, International Partnership for Hydrogen and Fuel Cells in the Economy (IPHE) on the role of LNG and hydrogen in the future energy mix as global focus grows on green growth and decarbonisation of the energy sector. Tim Karlsson is of the view that LNG & Hydrogen will play a key complementary role in the energy transition.

Technical Paper

31 Application of Nano-Based Drilling Fluids: A Review

Special Report

4 It's time to make clean energy investment in emerging and developing economies a top global priority

10 AVEVA signs the largest ever alliance committed to achieving net zero carbon emissions by 2050

18 A paradigm shift in the making for renewable energy demand

46 Restoring glory with technology

TS Queen Mary is being restored to its former glory with the help of a 'digital twin'
