'The answer to the energy trilemma is the connected industrial economy'

32

"We will meet the Accelerated Exploration Plan target for 2025"

"ONGC is executing a 3-year accelerated exploration plan from 2022 to 2025, with several key objectives encompassing expanding operating acreages, increasing the volume of 3D seismic data acquisition, and enhancing ONGC's exploratory drilling efforts while maintaining a sustainable reserve-to-production ratio."

STEADFAST TO SUSTAINABLE GROWTH

Special Report

DNV launches 7th edition of the Energy Transition Outlook (ETO) □

10

DNV ETO : Renewables still not replacing fossil fuels in the global energy mix

"The ETO is DNV's single 'best estimate' forecast of the energy future, with sensitivities considered in relation to our main conclusions. This annual Energy Transition Outlook presents the results from DNV independent model of the world's energy system. It covers the period through to 2050 and forecasts the energy transition globally and in 10 world regions"

Remi Eriksen, Group President & CEO, DNV

Technology

- 8** Sercel OBN portfolio to operate in all seabed survey water depths  SERCEL
- 44** Cordless high-performance seismic sensor **STRYDE**
- 49** Super resolution seismic inversion through deep learning: A Teapot Dome case study
- 55** How Machine Learning saves time and costs in subsurface interpretation studies

Plus

- 67** India's commitment to energy transition

A note on the role of Directorate General of Hydrocarbons (DGH) in the energy transition
